PURPOSE	Purchase one new(replacement) slide water feature	

BACKGROUND	Staff has determined the existing frog slide located at the Aquatic Center needs to be replaced as the outer layer of the slide is coming loose from the concrete base. After we closed for the season and winterized the facility we found more problems within the actual slide as the rubber material is splitting. This slide has been in place since the opening of the facility in 2002. Staff has had a company evaluate our existing slide, and they determined they were not able to refurbish it. We then attempted to notify the manufacturer of the slide only to find out they have gone out of business. We then started looking to locate a replacement slide that would fit our existing application only to find that a new 6' frog slide would not work on our existing pad. Therefore, we looked into a larger slide to fit over our existing pad and mount to the floor of the pool. We did have a manufacturer's representative come and take photos and measurements to determine that a 10' frog slide would work for our application, I sent a memo dated January 30, 2013 covering some of the details of the events. The estimated delivery is 6-8 weeks after receipt of order, and city staff will do the installation and required plumbing connections after it arrives.
SPECIAL NOTES	Staff feels it is important to move forward on this item so we can make sure we have a slide in place and able to be utilized when we open in May, 2013.
ANALYSIS	Staff was able to receive two written quotes for this feature - Rec Supply, Bismarck, ND. for $21,010.50 and from Arlan Company Inc., Leawood, Ks. For $20,901.50 with Arlan Company being the low quote.
